1. American Community Survey 2020-2024, unless noted otherwise

2. Median values for certain aggregate regions (such as MSAs) may be estimated as the weighted averages of the median values from the composing counties.

3. Disconnected Youth are 16-19 year olds who are (1) not in school, (2) not high school graduates, and (3) either unemployed or not in the labor force.

4. Census Population Estimate for 2025, annual average growth rate since 2015.

5. The Census's method for calculating median house values changed with the 2022 data set, so pre-2022 values are not directly comparable with later data.

Employment Trends

As of 2026Q1, total employment for the Sumter County 30 Minute Drive Time was 409,157 (based on a four-quarter moving average). Over the year ending 2026Q1, employment increased 0.0% in the region.

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2025Q4 with preliminary estimates updated to 2026Q1.

Unemployment Rate

The unemployment rate for the Sumter County 30 Minute Drive Time was 4.3% as of May 2026. The regional unemployment rate was higher than the national rate of 4.1%. One year earlier, in May 2025, the unemployment rate in the Sumter County 30 Minute Drive Time was 4.3%.

Unemployment rate data are from the Local Area Unemployment Statistics, provided by the Bureau of Labor Statistics and updated through May 2026.

Wage Trends

The average worker in the Sumter County 30 Minute Drive Time earned annual wages of \$59,819 as of 2026Q1. Average annual wages per worker increased 3.8% in the region over the preceding four quarters. For comparison purposes, annual average wages were \$77,110 in the nation as of 2026Q1.

Annual average wages per worker data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2025Q4 with preliminary estimates updated to 2026Q1.

Cost of Living Index

The Cost of Living Index estimates the relative price levels for consumer goods and services. When applied to wages and salaries, the result is a measure of relative purchasing power. The cost of living is 11.9% lower in Sumter County 30 Minute Drive Time than the U.S. average.

Cost of Living Information			
	Annual Average Salary	Cost of Living Index (Base US)	US Purchasing Power
Sumter County 30 Minute Drive Time	\$59,819	88.1	\$67,897
South Carolina	\$62,567	91.0	\$68,727

Data as of 2026Q1

Note: Figures may not sum due to rounding.

1. All data based upon a four-quarter moving average

Exits and transfers are approximate estimates based upon occupation separation rates.

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2025Q4 with preliminary estimates updated to 2026Q1. Forecast employment growth uses national projections adapted for regional growth patterns.

Occupation Snapshot

The largest major occupation group in the Sumter County 30 Minute Drive Time is Office and Administrative Support Occupations, employing 52,364 workers. The next-largest occupation groups in the region are Sales and Related Occupations (36,451 workers) and Food Preparation and Serving Related Occupations (35,845). High location quotients (LQs) indicate occupation groups in which a region has high concentrations of employment compared to the national average. The major groups with the largest LQs in the region are Protective Service Occupations (LQ = 1.56), Legal Occupations (1.41), and Healthcare Practitioners and Technical Occupations (1.23).

Occupation groups in the Sumter County 30 Minute Drive Time with the highest average wages per worker are Management Occupations (\$125,100), Healthcare Practitioners and Technical Occupations (\$107,000), and Legal Occupations (\$105,000). The unemployment rate in the region varied among the major groups from 2.0% among Legal Occupations to 8.9% among Farming, Fishing, and Forestry Occupations.

Over the next 1 year, the fastest growing occupation group in the Sumter County 30 Minute Drive Time is expected to be Healthcare Support Occupations with a +1.0% year-over-year rate of growth. The strongest forecast by number of jobs over this period is expected for Healthcare Practitioners and Technical Occupations (+221 jobs) and Healthcare Support Occupations (+206). Over the same period, the highest separation demand (occupation demand due to retirements and workers moving from one occupation to another) is expected in Food Preparation and Serving Related Occupations (6,711 jobs) and Office and Administrative Support Occupations (5,657).

Data as of 2026Q1 unless noted otherwise

Note: Figures may not sum due to rounding.

1. Data based on a four-quarter moving average unless noted otherwise.

2. Wage data represent the average for all Covered Employment

3. Data represent found online ads active within the last thirty days in the selected region. Due to alternative county-assignment algorithms, ad counts in this analytic may not match that shown in RTI (nor in the popup window ad list). Ad counts for ZCTA-based regions are estimates.

Occupation employment data are estimated via industry employment data and the estimated industry/occupation mix. Industry employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and currently updated through 2025Q4, imputed where necessary with preliminary estimates updated to 2026Q1. Wages by occupation are as of 2026 provided by the BLS and imputed where necessary. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

Industry Clusters

A cluster is a geographic concentration of interrelated industries or occupations. The industry cluster in the Sumter County 30 Minute Drive Time with the highest relative concentration is Public Admin. with a location quotient of 1.95. This cluster employs 36,437 workers in the region with an average wage of \$65,011. Employment in the Public Admin. cluster is projected to expand in the region about 0.0% per year over the next ten years.

Region Definition

Sumter County 30 Minute Drive Time is defined as the following counties:

Clarendon County, South Carolina

Darlington County, South Carolina

Florence County, South Carolina

Kershaw County, South Carolina

Lee County, South Carolina

Richland County, South Carolina

Sumter County, South Carolina

FAQ

What is a location quotient?

A location quotient (LQ) is a measurement of concentration in comparison to the nation. An LQ of 1.00 indicates a region has the same concentration of an industry (or occupation) as the nation. An LQ of 2.00 would mean the region has twice the expected employment compared to the nation and an LQ of 0.50 would mean the region has half the expected employment in comparison to the nation.

What is separation demand?

Separation demand is the number of jobs required due to separations—labor force exits (including retirements) and turnover resulting from workers moving from one occupation into another. Note that separation demand does not include all turnover—it does not include when workers stay in the same occupation but switch employers. The total projected demand for an occupation is the sum of the separation demand and the growth demand (which is the increase or decrease of jobs in an occupation expected due to expansion or contraction of the overall number of jobs in that occupation).

What is a cluster?

A cluster is a geographic concentration of interrelated industries or occupations. If a regional cluster has a location quotient of 1.25 or greater, the region is considered to possess a competitive advantage in that cluster.

What is the difference between industry wages and occupation wages?

Industry wages and occupation wages are estimated via separate data sets, often the time periods being reported do not align, and wages are defined slightly differently in the two systems (for example, certain bonuses are included in the industry wages but not the occupation wages). It is therefore common that estimates of the average industry wages and average occupation wages in a region do not match exactly.

What is NAICS?

The North American Industry Classification System (NAICS) is used to classify business establishments according to the type of economic activity. The NAICS Code comprises six levels, from the “all industry” level to the 6-digit level. The first two digits define the top level category, known as the “sector,” which is the level examined in this report.

What is SOC?

The Standard Occupational Classification system (SOC) is used to classify workers into occupational categories. All workers are classified into one of over 804 occupations according to their occupational definition. To facilitate classification, occupations are combined to form 22 major groups, 95 minor groups, and 452 occupation groups. Each occupation group includes detailed occupations requiring similar job duties, skills, education, or experience.
